Highly skilled data scientist with a strong background in data analysis, machine learning, and data visualization. Experienced in leveraging data-driven insights to drive strategic decision-making and deliver actionable solutions. Proficient in programming languages such as Python and R, with expertise in data cleaning, modeling, and predictive analytics. Sometimes I write about AI on medium.

## WORK EXPERIENCE

---

### Data Analyst - Naseem Foods International

**Nov 2022 - Jan 2023**

- During the internship, I put my theoretical knowledge into practice, tackling real-world data issues. This hands-on experience involved tasks like data cleaning, analysis, and management using Microsoft Excel.
- I assumed responsibility for overseeing various datasets, guaranteeing their orderly arrangement, accuracy, and ease of access. This played a crucial role in enhancing the efficiency of our data resources, encompassing inventory and client information.
- My contributions aided the company in making informed, data-driven decisions.

### Data Scientist - alnafi

**Jan 2022 - May 2022**

- Top learner on alnafi platform, chosen as intern for data-related coursework.
- Completed internship, gaining practical experience in data cleaning, analysis, and management.
- Excelled in various tasks, leveraging knowledge to succeed in role and helped in making the website dynamic.
- Proficient in data cleaning techniques for accurate and reliable data.
- Applied data analysis skills to extract insights. Developed KPI tracking dashboards to enable data-driven decision-making across departments.
- Collaborated effectively with team to achieve project objectives. Managed data sets for organization, integrity, and accessibility.
- Applied theoretical knowledge to enhance problem-solving abilities. Adapted quickly with eager learning attitude.

### Social Media Manager/Graphic Design - Freelance

**Oct 2019 - July 2021**

- Demonstrated proficiency as a freelance professional, successfully acquiring and executing a diverse range of small-scale projects.
- Effectively curated and maintained corporate social media profiles, engaging with and expanding the reach of the target demographic.
- Strategically orchestrated advertising campaigns within allocated budgets, optimizing resource utilization for maximum impact.

### Teacher - Lum Vision Academy

**Aug 2016 - June 2017**

- I have a distinguished background in teaching O'levels and A'levels engineering subjects, encompassing physics, chemistry, maths, and computer science. Through my expertise and passion for education, I successfully imparted knowledge and fostered academic growth among a diverse group of students.

## EDUCATION

---

**University of Karachi**

**Jan 2018 – Dec 2022**

BS in Actuarial Science

## CERTIFICATIONS

---

- **Datacamp Data Scientist Professional**
- **Google Data Analytics Specialization**
- **Tensorflow Developer Specialization**
- **Machine Learning on Google Cloud Specialization**
- **Google Business Intelligence Specialization**

## SKILLS

---

Python (NumPy, Pandas, Scikit-learn, Matplotlib/Seaborn, Flask etc), R, SQL, PowerBI, Tableau, Deep Learning (Tensorflow, Pytorch), MLOps, Natural Language Processing(NLP), Computer Vision(CV), Big Data(Spark), Cloud(AWS, GCP, Azure), Prompt Engineering, Deployment,LLMs.
